## Dunlopillo latex - the natural way to sleep

### Environmentally friendly

Dunlopillo latex is one of the most eco-friendly mattress fillings. Latex rubber trees purify over 90 million tons of carbon dioxide a year. All of our natural Dunlopillo latex is sourced from sustainably managed plantations.

### Health and wellbeing

Dunlopillo latex has anti-allergenic, anti-bacterial and anti-microbial properties. In addition, the unique properties of Dunlopillo latex promote improved blood circulation for excellent muscle relief.

### Durable and breathable

Dunlopillo latex is highly durable and responsive. The unique open cell structure of Dunlopillo latex enables Dunlopillo GO mattresses to be self ventilating and also eliminates the heat build-up associated with memory foam.

### Progressive comfort

Thanks to its ability to isolate motion, Dunlopillo latex instantly responds to individual profiles and isolates movements, encouraging muscles to relax for a deeper and more restful sleep.
